

# PLANT ARMOR™ Elite

All Natural Protective  
Plant Wash

Plant Armor™ Elite is India's most advanced non-toxic, non-harmful and natural polymers based plant protecting solution. Plant Armor™ Elite forms a protective layer on the plants and is effective in terms of removing and preventing bacterial blight, powdery mildew, spider mites, russet mites, worms, aphids and bugs without using chemical fungicides and pesticides. Plant Armor™ Elite also enhances the natural nutrients of the plants and improves soil structures among other benefits. All the ingredients of Plant Armor™ Elite are food grade safe ingredients, which are classified G.R.A.S. by U.S. FDA.

## PRODUCT BENEFITS

- All Natural
- No wash needed after use
- Prevent and reduce plant surface disease
- Improve Plant Quality
- Easy application
- Removing and preventing bacterial blight and powdery mildew, mites and bugs

## USE IN COMBINATION WITH OTHER PRODUCTS

Do NOT co-apply with any other chemical products or chemical present in the water.

## Packaging, transport & storage

Plant Armor is available in pack of 500 and 1000 g. Store dry, frost-free and away from direct sunlight.

## Health and safety information

Not suitable for ingestion. Wash hands after handling the product. KEEP OUT OF REACH OF CHILDREN.

## INGREDIENTS

Polysaccharides	95%
Calcium Carbonate	5%

## ADDITIONAL INFORMATION

- Non-toxic and non-harmful to human, animal and plants
- Natural and Food grade safe ingredients
- Classified as G.R.A.S. by U.S. FDA
- All water soluble and water rinse-away ingredients

## APPLICATION

### Routine Application:

Use spray nozzles to mist spray the Plant Armor™ Elite solution covering the entire leaf surfaces once every two weeks.

### Active Treatment:

For severe pests, mite, worm and fungi issues, apply Plant Armor™ Elite solution (Active treatment concentration, see below "ATC\*") every week until issues resolved and then apply once every two week as the routine application.

### Preparation and mixing instructions:

1. Simultaneously pour and mix 4 g of Plant Armor™ Elite in 1 litre of water creating a constant agitation until all of the powder is completely dispersed in the water.

**\*Active Treatment Concentration (ATC):** For severe pests and mildew issues, active treatment concentration (ATC) can be used by increasing Plant Armor™ Elite to 6 to 8 g per litre of water.

2. Make Sure all of the spray nozzles are working to ensure proper coverage.
3. Adequate spray coverage is very important for the performance of Plant Armor™ Elite solutions

<b>PROPERTIES</b>	Odour	Odourless
	pH value	6.8
	Appearance	Granular white and TAN powder
	Specific Gravity	1.09 @ 20°C
	Water solubility	Dispersible in water

## WARRANTY

Greenbay sells the product Plant Armor. Carefully follow the instructions on the packaging. We do not guarantee the product's suitability for applications other than originally intended. Greenbay is only obliged to replace any products that do not meet the specifications. Suggestions for use and information on results of the product's use obtained by the producer may be considered reliable. As Greenbay cannot control the conditions of the product's use, the buyer/user is responsible for all results, including any injuries or damage resulting from the use of this product alone or in combination with other products. Keep out of reach of children.
